

# SCRAM CHEAT SHEET

## Worlds

Go to a world: `.warp <worldName>`  
Example: `.warp pe-RealAirHog`  
Partial usernames work too: `.warp <startOfName>`  
Example: `.warp R`  
Go to your private home world: `.home`  
Go to the lobby: `.lobby`  
Set your game mode (in your world):  
`.gamemode <mode>`  
Set game mode for all visitors (in your world):  
`.gamemode @a <mode>`

## Maps

Save the world as a Map: `.map save <name>`  
Example: `.map save coolMap`  
Load a Map into the world: `.map load <name>`  
(Warning! This erases your current world, so save it first)  
Example: `.map load coolMap`  
List Maps: `.map list`

## Friends

Add a Friend: `.friend add <name>`  
Example: `.friend add pe-RealAirHog`  
List Friends: `.friend`  
Unfriend a Friend: `.friend forget <name>`  
Example: `.friend forget pe-MeanPerson`

## Modlets

Show available modlets: `.list`  
Run the second modlet from the list: `.2`  
Load a modlet: `.load <modletName>`  
Example: `.load myCoolModlet`  
Example: `.load scam.colorRun`  
Reload the last-loaded modlet: `.load or .reload`

## Locations

Save your current location: `.loc add <name>`  
Example: `.loc add camera2`  
Teleport to a saved location: `.loc go <name>`  
Example: `.loc go camera2`  
Save your location with group and world: `.loc add <name> <group> <world>`  
Example: `.loc add spawn1 spawn arena1`

## Structures

Start a new structure: `.struct new`  
Hide the structure arena: `.struct hide`  
Save the structure: `.struct save <name>`  
Example: `.struct save castle`  
Load a Structure in the structure arena:  
`.struct load <name>`  
Example: `.struct load castle`  
Build the structure where you are standing:  
`.struct place <name>`  
Example: `.struct place castle`

## Account

Get a new password: `.forgotpassword`
